

Genuine Lucite® spa surfaces allow you to realize your visions in deep, breathtaking color. Choose from a wide range of finishes to fit any decor—from stunning, textured granite to smooth, elegant marble styles. Lucite® acrylic has color that runs true to the core of the material. With proper care, your hot tub will be as rich and lustrous years from now as it is today.

Now 100%

LUCITE®

To learn more about genuine Lucite® surfaces for spas, baths or other applications, visit us at todaysspas.com and at lucite.com, or call 1-800-4-lucite.

Only hot tubs made from genuine Lucite® acrylic are exclusively available with Microban® antimicrobial product protection, which inhibits growth of bacteria that cause odor, stains and product degradation. Unlike sprays and liquids, Microban® product protection is actually part of the molecular makeup of the Lucite® surface. It virtually never wears off, so it helps your spa stay cleaner between cleanings.*

*Designed to work with your water-sanitizing program, not as a replacement.
